Lightning and surge protection for gantries – Example: overhead traffic signs

White Paper

Traffic guidance systems for motorways and highways are attached to cross-carriageway overhead gantries and ensure optimal traffic control on a global scale. They are supposed to prevent congestion and reduce the risks resulting from accidents, heavy rainfall and excessive speed. Traffic detection systems such as CCTV cameras, sensors and radar detectors are attached to gantries. On toll roads, additional

detection devices are installed which allow fully automated toll collection.

Direct lightning strikes to gantries, display modules and detection devices can be prevented by isolated air-termination rods. These air-termination rods are connected to the earth electrodes via high-voltage-resistant down conductors (DEHNcon-H, HVI light Conductor) (Figure 1). All buried earth electrodes

Table 2 Lightning and surge protection for a motorway overhead gantry which is located at a distance $> 5 \text{ m}$ from the control cabinet

are typically made of stainless steel (V4A) (material No. AISI/ASTM 316 Ti or equivalent).

The performance of the surge protective devices to be used depends on the distance between the gantry and the control cabinet. Type 2 or C2 surge arresters are used up to a distance of 5 m (**Table 1**) and type 1 or D1 combined arresters for distances of more than 5 m (**Table 2**).

The advantage of a high-voltage resistant down conductor is that the entire lightning current flows through this conductor. This precise discharge of the lightning current (from the point of strike to the soil), means that no uncontrolled partial lightning currents flow through conductive installations.

A stainless steel (V4A) radial earth electrode or earth rod is installed between the carriageways for both steel and concrete gantries. The earth electrode on the right edge of the carriageway is connected to the stainless steel (V4A) radial earth elec-

trode or earth rod of the control cabinet via a buried stainless steel (V4A) conductor (10 mm Ø or 30 x 3.5 mm). This connection also protects the cables underneath the control cabinet from flashover in case of lightning strikes. The steel-reinforced foundation of the control cabinet, if any, is also connected to the radial earth electrode or earth rod of the control cabinet. The length of the earth electrodes depends on the lightning protection level set out in the lightning protection standard.

In general, all cables which are unshielded or earthed on both ends must be protected by surge protective devices. Type 1 combined arresters (e.g. DEHNventil M TT 255 FM) are used to protect the low-voltage-side supply of the roadside controller. The information technology cables of the roadside controller are typically connected to the traffic control centre via optical fibre cables whose metal sheath, if any, should be connected to the equipotential bonding system.

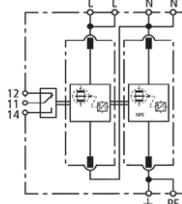

DEHNventil

DV M TT 2P 255 FM (951 115)

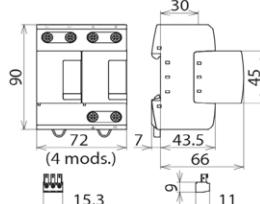

- Prewired spark-gap-based type 1 and type 2 combined lightning current and surge arrester consisting of a base part and plug-in protection modules
- Maximum system availability due to RADAX Flow follow current limitation, Capable of protecting terminal equipment

Max. continuous operating voltage (a.c.) (U_c)	23.3 V
Nominal current at 45 °C (I_L)	0.75 A
D1 Lightning impulse current (10/350 µs) per line (I_{imp})	1 kA
C2 Total nominal discharge current (8/20 µs) (I_n)	20 kA
C2 Nominal discharge current (8/20 µs) per line (I_n)	10 kA
Voltage protection level line-line for I_n C2 (U_p)	≤ 105 V
Voltage protection level line-PG for I_n C2 (U_p)	≤ 85 V
Voltage protection level line-line at 1 kV/µs C3 (U_p)	≤ 90 V
Voltage protection level line-PG at 1 kV/µs C3 (U_p)	≤ 45 V
Series impedance per line	1.8 ohm(s)
Cut-off frequency line-PG (f_G)	6.8 MHz
Capacitance line-line (C)	≤ 0.5 nF
Capacitance line-PG (C)	≤ 1.0 nF
Operating temperature range (T_U)	-40 °C ... +80 °C
Degree of protection (with plugged-in protection module)	IP 20
Pluggable into	BXT BAS / BSP BAS 4 base part
Earthing via	BXT BAS / BSP BAS 4 base part
Enclosure material	polyamide PA 6.6
Colour	yellow
Test standards	IEC 61643-21, UL 497B
Approvals	UL, CSA, SIL, EAC
SIL classification	up to SIL3 *)
Weight	21 g
Customs tariff number (Comb. Nomenclature EU)	85363010
GTIN	4013364127036
PU	1 pc(s)

BLITZDUCTOR SP

BSP M2 BD 5 (926 240)

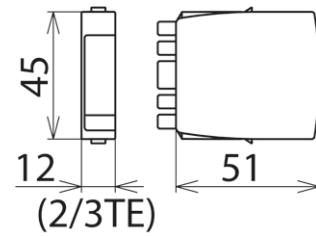

- High degree of protection for one pair
- For installation in conformity with the lightning protection zone concept at the boundaries from $0_B - 2$ and higher

Figure without obligation

Basic circuit diagram BSP M2 BD 5

Dimension drawing BSP M2 BD 5

Space-saving surge arrester module for protecting one pair of balanced interfaces with galvanic isolation.

Type	BSP M2 BD 5 926 240
Part No.	TYPE 2PI
SPD class	
Nominal voltage (U_N)	5 V
Max. continuous operating voltage (d.c.) (U_C)	6.0 V
Max. continuous operating voltage (a.c.) (U_C)	4.2 V
Nominal current at 45 °C (I_L)	1.0 A
D1 Lightning impulse current (10/350 µs) per line (I_{imp})	1 kA
C2 Total nominal discharge current (8/20 µs) (I_n)	20 kA
C2 Nominal discharge current (8/20 µs) per line (I_n)	10 kA
Voltage protection level line-line for I_n C2 (U_p)	≤ 15 V
Voltage protection level line-PG for I_n C2 (U_p)	≤ 600 V
Voltage protection level line-line at 1 kV/µs C3 (U_p)	≤ 9 V
Voltage protection level line-PG at 1 kV/µs C3 (U_p)	≤ 550 V
Series impedance per line	1.0 ohm(s)
Cut-off frequency line-line (f_C)	1.0 MHz
Capacitance line-line (C)	≤ 5.4 nF
Capacitance line-PG (C)	≤ 16 pF
Operating temperature range (T_U)	-40 °C ... +80 °C
Degree of protection (with plugged-in protection module)	IP 20
Pluggable into	BXT BAS / BSP BAS 4 base part
Earthing via	BXT BAS / BSP BAS 4 base part

BLITZDUCTOR

BXT BAS (920 300)

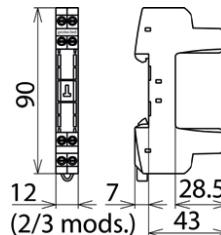

- Four-pole version for universal use with all types of BSP and BXT / BXTU protection modules
- No signal interruption if the protection module is removed
- Universal design without protection elements

Figure without obligation

Basic circuit diagram with and without plugged-in module

Dimension drawing BXT BAS

The BLITZDUCTOR XT base part is an extremely space-saving and universal four-pole feed-through terminal for the insertion of a protection module without signal disconnection if the protection module is removed. The snap-in mechanism at the supporting foot of the base part allows the protection module to be safely earthed via the DIN rail. Since no components of the protective circuit are situated in the base part, maintenance is only required for the protection modules.

Type Part No.	BXT BAS 920 300
Operating temperature range (T_U)	-40 °C ... +80 °C
Degree of protection	IP 20
For mounting on	35 mm DIN rails acc. to EN 60715
Connection (input / output)	screw / screw
Signal disconnection	no
Cross-sectional area, solid	0.08-4 mm ²
Cross-sectional area, flexible	0.08-2.5 mm ²
Tightening torque (terminals)	0.4 Nm
Earthing via	35 mm DIN rails acc. to EN 60715
Enclosure material	polyamide PA 6.6
Colour	yellow
ATEX approvals	DEKRA 11ATEX0089 X: II 3 G Ex nA IIC T4 Gc *)
IECEx approvals	DEK 11.0032X: Ex nA IIC T4 Gc *)
Approvals	CSA, UL, EAC, ATEX, IECEx *)
Weight	34 g
Customs tariff number (Comb. Nomenclature EU)	85369010
GTIN	4013364109179
PU	1 pc(s)

*) only in connection with an approved protection module

DEHNcon-H**HVI LI 20 L6M SR2640 FSP1000 GFK AL V2A (819 258)**

Figure without obligation

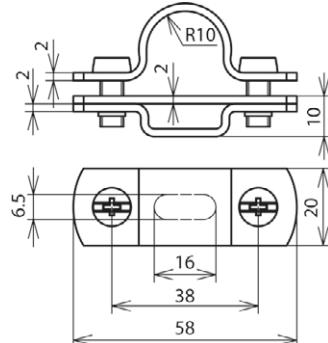

Type	HVI LI 20 L6M SR2640 FSP1000 GFK AL V2A
Part No.	819 258
Material of supporting tube	GRP / Al
Length of supporting tube	2640 mm
Transport length	2640 mm
Material of air-termination rod	StSt
Length of air-termination rod	1000 mm
Diameter Ø conductor	20 mm
Colour of conductor	grey ●
Material of conductor	Cu
RAL colour	similar to 7000
Cross section of core	19 mm ²
Equivalent separation distance s (air)	≤ 45 cm
Material of insulation	PE
Material of sheath	PVC
Characteristics of sheath	UV stabilized and weather resistant
Connection diameter	10 mm
EB connection cable	strip StSt 2200 x 18 x 0.4 mm
Material of connection elements	StSt
Minimum order length	6 m
Max. gust wind speed	198 km/h
Max. free length	3040 mm
Min. clamping length	600 mm
Weight	6.97 kg
Customs tariff number (Comb. Nomenclature EU)	85389099
GTIN	4013364255418
PU	1 pc(s)

Conductor holder for CUI Conductor

LH ZS 20 H10 B6.5X16 V2A (275 229)

Figure without obligation

Type	LH ZS 20 H10 B6.5X16 V2A
Part No.	275 229
Conductor leading	fixed
Material of screw	StSt
Material of conductor holder	StSt
Conductor holder support Rd	20 mm
Height of conductor holder	10 mm
Fixing	6.5 x 16 mm
Screw	M6 x 14
Standard	DIN EN 62561-4
Weight	59 g
Customs tariff number (Comb. Nomenclature EU)	85389099
GTIN	4013364102040
PU	50 pc(s)

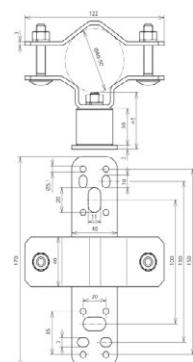

Mounting bracket for air-termination rods

WB D40.50 SE WA46 V2A (105 342)

For fastening the supporting tubes or air-termination rods D40 / D50 on superstructures or walls.

Type	WB D40.50 SE WA46 V2A
Part No.	105 342
Material of bracket	StSt
Fixing	[8x] Ø5.1 / [4x] 7 x 10 / [2x] 11 x 20 mm
Clamping range of supporting tube	40-50 mm
Wall distance	46 mm
Material of screw	StSt
Weight	514 g
Customs tariff number (Comb. Nomenclature EU)	85389099
GTIN	4013364111141
